

RFSSL CRIME REPORT (APRIL, 2025.)

EXECUTIVE SUMMARY:

Crime Analysis:

In the crime statistics that has been analyzed from the sample population, a **1.70%** increase in crime rate was witnessed in the month of April, 2025 in comparison with the March, 2025 crime statistics. A total of **3,774** crime related incidents were reported in the month of April compared to **3,711** criminal incidents that were reported in the month of March.

In the period under review and within the sample population, crime was most prevalent in the Nairobi County where a total of **896** incidents were reported. This is a further **1.13%** increase in crime rate within the Nairobi County in comparison to the March, 2025 period where a total of **886** criminal activities were formally reported to the law enforcement agencies. In terms of crime prevalence within the period under review, the Nairobi County was closely followed by the Kiambu and the Nakuru Counties, which recorded a total of **660** and **384** incidents respectively. In all the counties that were sampled, all witnessed an increase in crime rate in the period of April, 2025 except for the Kisumu and Kilifi Counties which witnessed a **20.36%** and **14.94%** drop in crime rate.

The Machakos County witnessed the highest percentage increase in crime rate in the month of April at **30.19%** and was followed by the Kwale County, which witnessed a **22.50%** increase in crime rate.

It is worth noting that the counties of Nairobi, Kakamega, Kirinyaga and Kwale have in the past three months of February, March and April have steadily witnessed an increasing trend in crime rate.

Despite the general sample population recording a **1.70%** increase in crime rate under the period under review, the counties gazetted as cities within the Republic

of Kenya, Nairobi, Kisumu, Mombasa and Nakuru recorded a **1.03%** decline in crime. A total of **1,722** criminal activities were recorded in the month of April in comparison to the **1,740** cases that were recorded in the month of March.

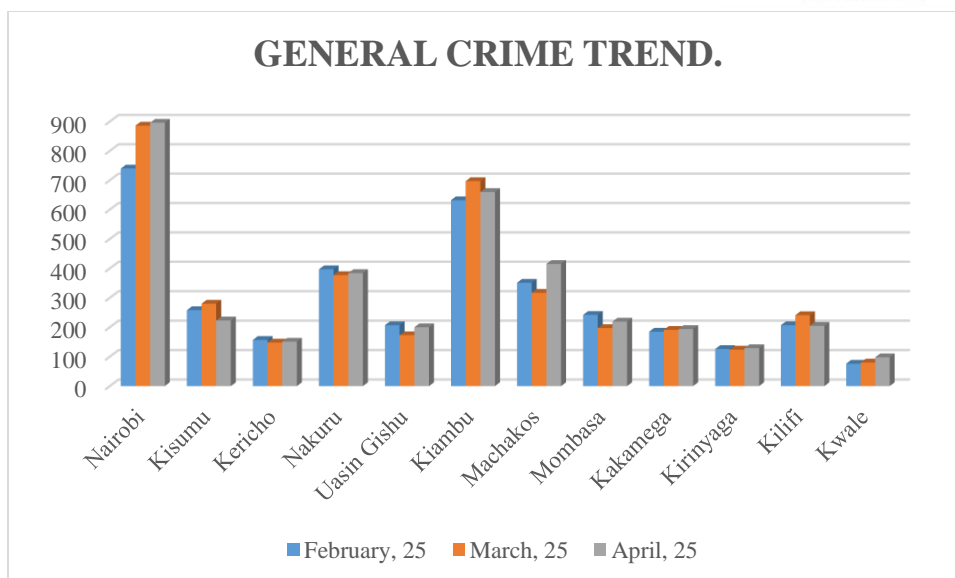

In the Nairobi County, crime was most prevalent in the Eastlands division of Buruburu where a total of **144** incidents were recorded. This is further a **58.24%** increase in crime rate within the Buruburu division in comparison to the March crime statistics whereby a total of **91** incidents were recorded. In the month of March within the Nairobi County, crime was most prevalent in Kayole division. Within the Nairobi County, the Kasarani, Kilimani, Starehe, Makadara, and Kayole divisions have in the past three months recorded a steady increase in crime rate.

Within the Kisumu County, crime was most prevalent in the Kisumu Central and Kisumu East divisions where a total of **48** and **39** incidents were reported. However, in the past three months, the Kisumu Central division have recorded a declining trend in criminal activities.
